D.H.A.SIAMWALLA BANGKOK STATIONERY CAPITAL

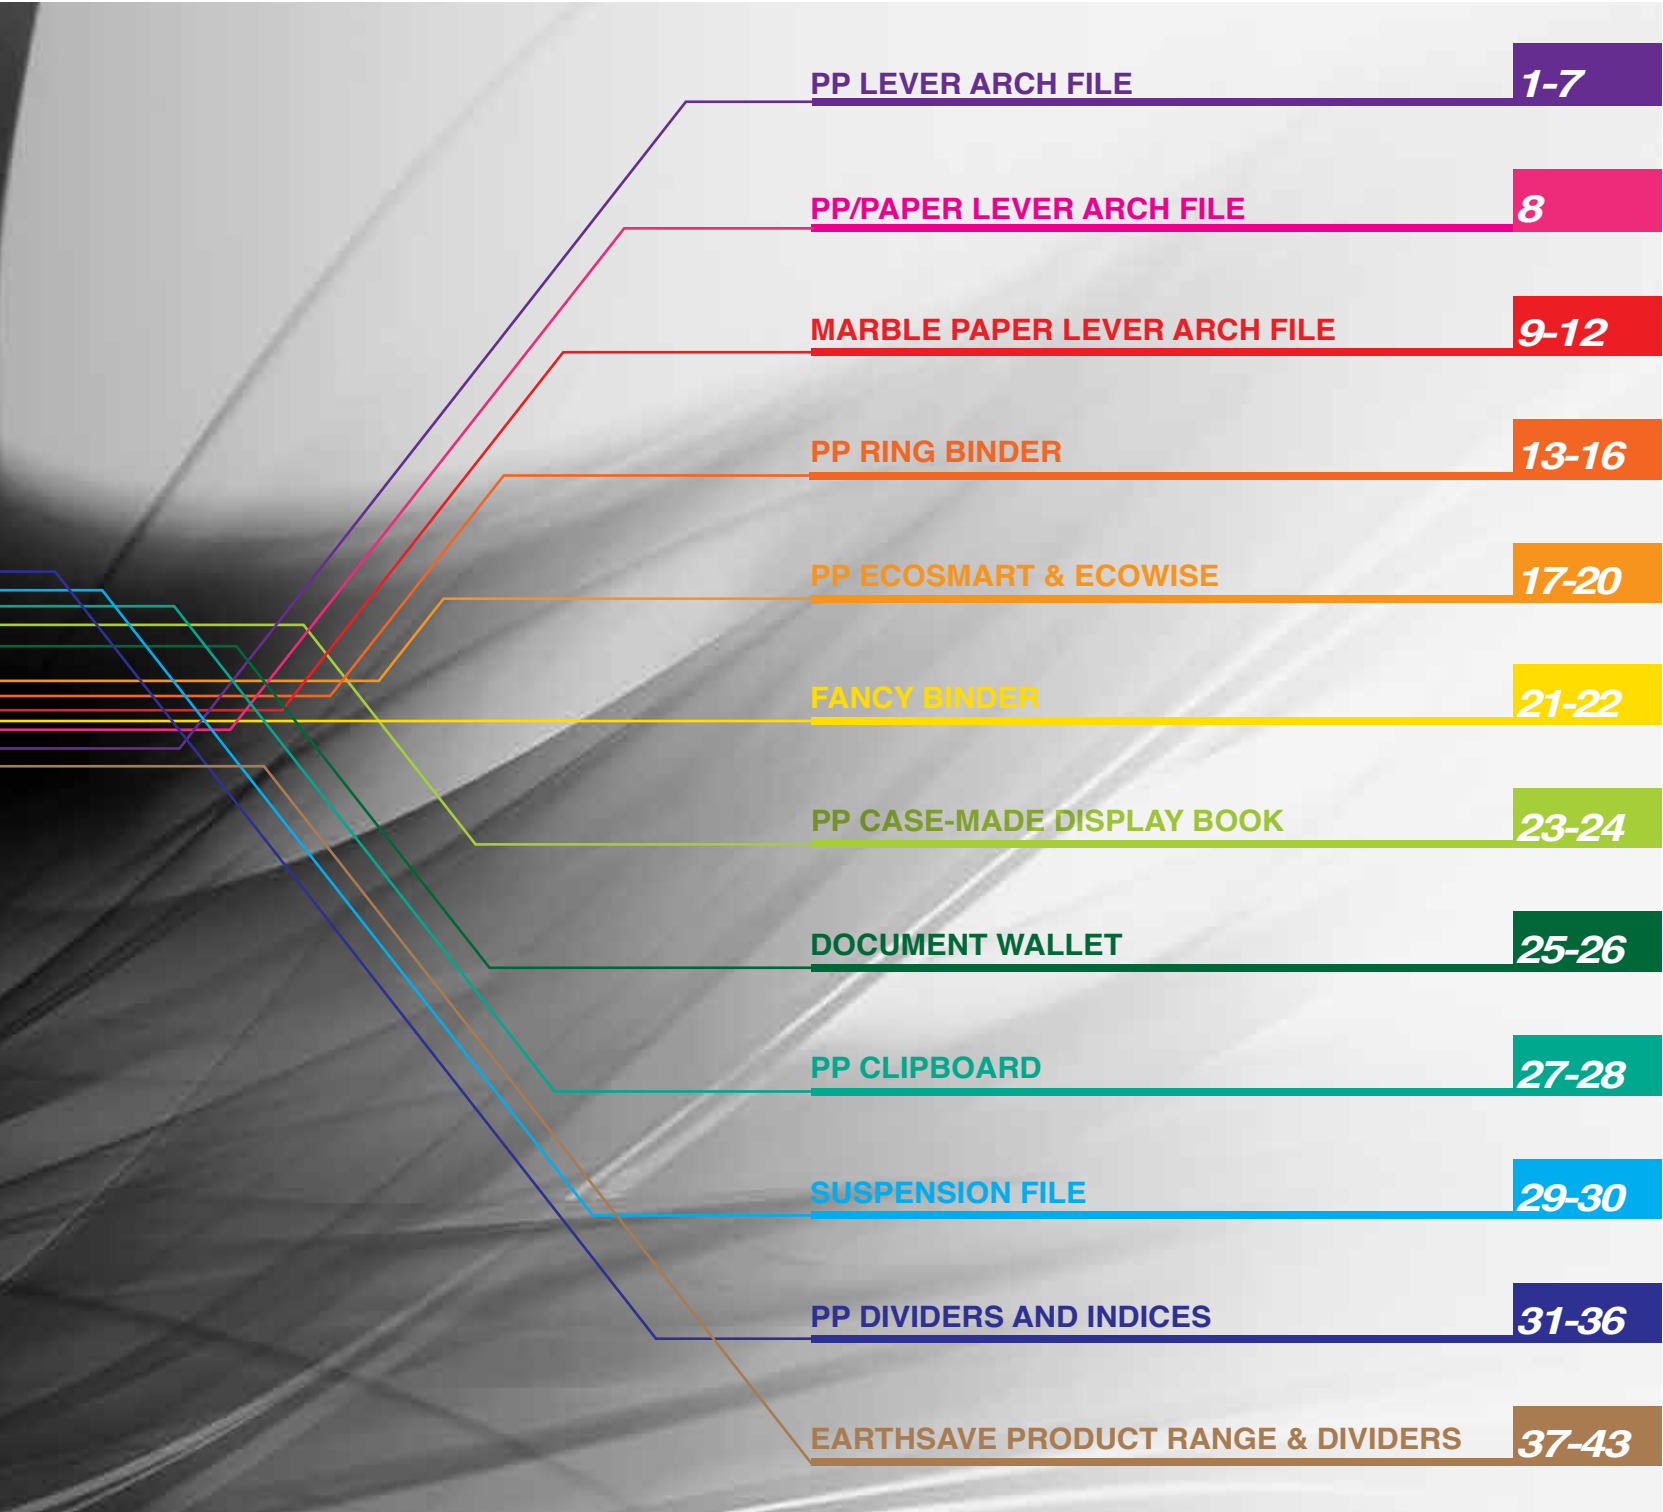

CONTENTS

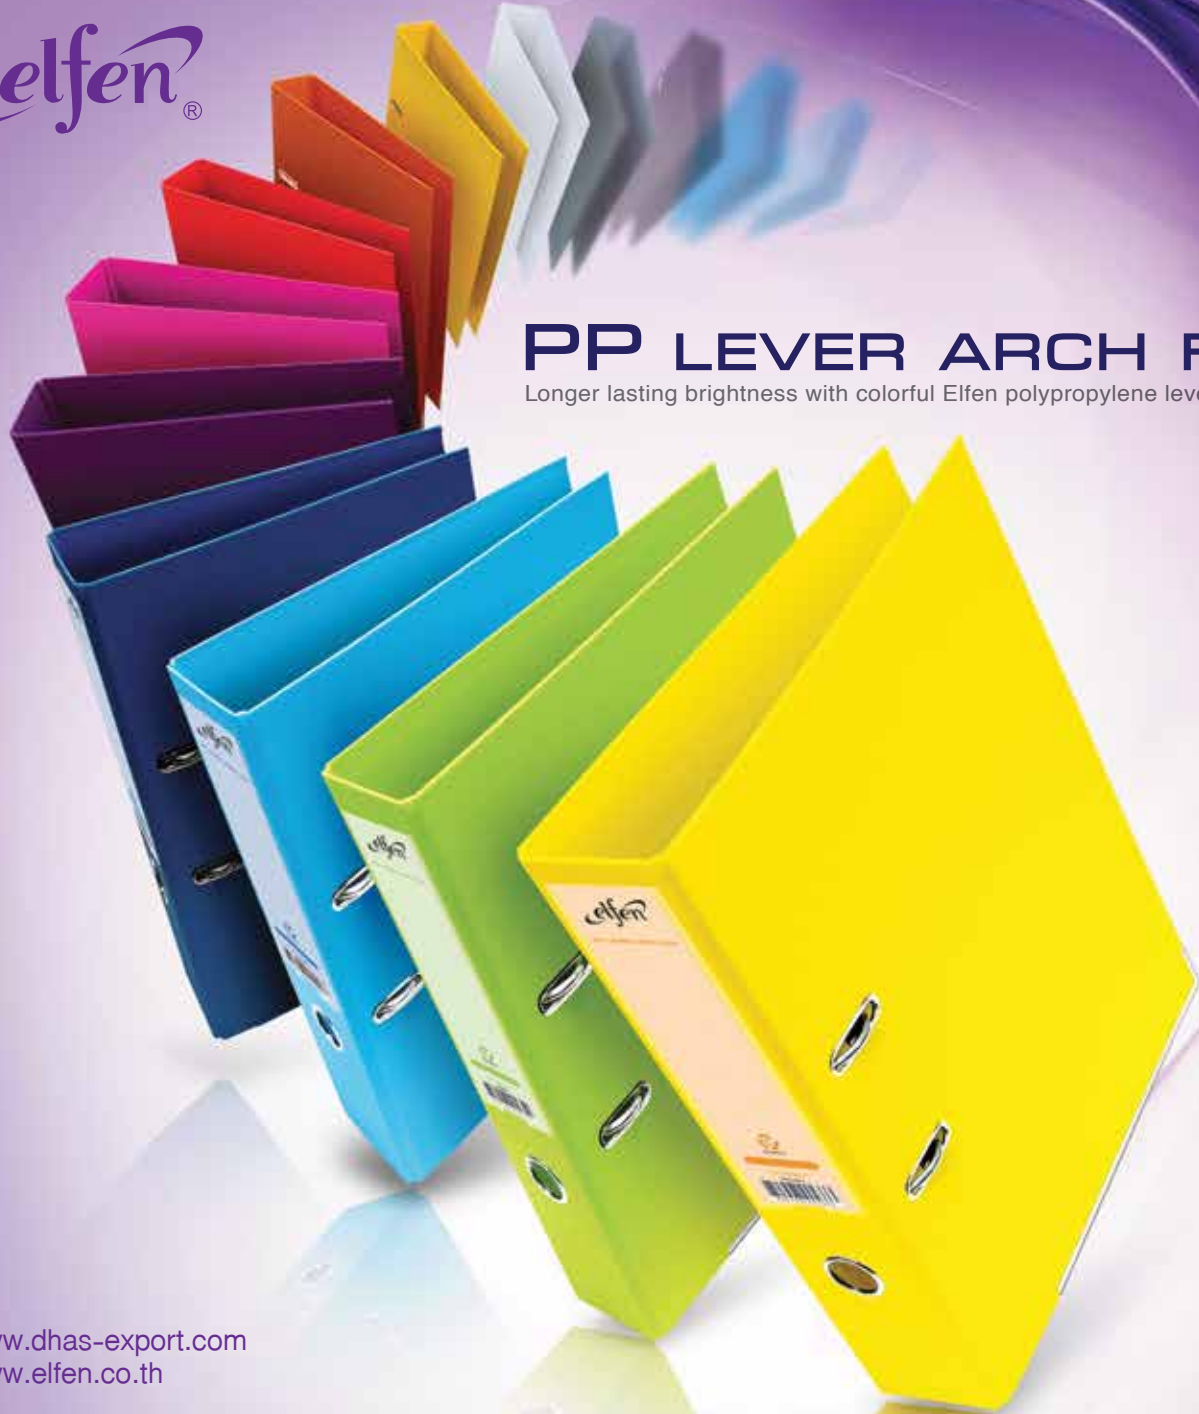

Elfen is a part of DHA Siamwalla Ltd., a centenarian firm, established in Bangkok, Thailand, since 1907. Our general stationery manufacturing history dated back to the 1930's, and files manufacturing in particular, to the 1960's. We were the first in Asia, to have in-house metal components manufacturing, and in-house plastic film extrusion for PP lining materials. Hence, while others follow, Elfen has lead and started the trend towards more economic price level for Polypropylene-based products, and significantly improve health safety for consumers, and contribute to better care of our planet earth.

Under the same roof, we also manufacture files and binders made of rigid PP and PP welded binders, hanging files, sheet protectors, L-shape folders, indices dividers and all kind of notebooks. The other factory is located at Pratumthani where we extrude environmentally PP film as well as the special lever arch mechanism called "SUPER STRONG". Thanks for these two unique components, our company appears as the one which can produce the best quality and strong PP lever arch files in the world.

With our serious intention on being pioneer in the market, we have invested in R&D and in-house engineering. As a result, our company is the first choice for many customers worldwide who are care of global environment.

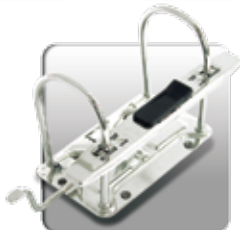

The company keeps developing in an area of new green products such as biodegradable PP, 100% post consumer recycled material and others in the foreseeable future. Our products have been distributed in Thailand under ELEPHANT brand. For international market our products are widely acknowledged under both ELFEN and ELEPHANT brand.

PP LEVER ARCH FILE

Longer lasting brightness with colorful Elfen polypropylene lever arch files

Standard Mechanism

Made with 100% Recycled Board

With Standard Mechanism

- Top quality and strong cardboard of 2.1 MM. thickness, no warping and cracking
- High finish linen embossed PP on both sides
- Durable lever arch mechanism keeps paper secure
- Spine pocket with interchangeable spine label
- Rado front cover locking
- Metal reinforced finger ring makes it easy to retrieve files from shelves
- Slide Mechanisms are available
- Embossing Pattern : Linen, Deep Leather, Vertical Stripe

Code	Spine Width	Size	Board Dimension
1202F	75 MM.	Foolscap	350 x 640 MM.
